It is announced that Sargeant A. G. Conrad, of Pincher Creek, has been killed in action.

Council Decides To Retrench By Cutting off Street Lights

The regular meeting of the Blairmore council last night was adjourned by Mayor Beale, Councillors McVey, Dutil and Lagace, and Secretary Wright, and quite a number of ratepayers and spectators.

The minutes of previous meetings were on motion approved as read.

Communications were received from the Union Bank of Canada, the Department of Municipal Affairs and the Bond Dealers Association. The first mentioned was the result of the town considering the acceptance of lots in lieu of tax arrears, and stated that as the Bank had been given first title to taxes due on certain lots they could not see their way clear to consent to disposal of lots on such terms. The Deputy Minister of Municipal Affairs replied to the Secretary's query on the same subject, and stated that the Towns' Act made no provision empowering the council to adopt such steps, and that cash should be the only consideration for taxes.

A communication from the provincial board of health drew the attention of the town's health officer to the need of health to continue sanitary conditions existing and complained of by a citizen whose name they withheld. The question was referred to the proper authorities for investigation.

Comptroller Leggat complained of certain parties having stables and other houses erected within the prohibited distance from drainage running through the town, stating that some of them were far within the prescribed fifty-foot distance. Also that certain residences in his locality had not in connection with the outhouses as prescribed by the Health Act.

In reply to complaints, the deputy minister informed the council that in the event of parties failing to live up to the requirements of the Health Act in this respect, the local board of health may take steps to condemn such property as being a menace to the health of the community.

The Blairmore Pharmacy applied for the privilege to erect a bracket sign over their store door. This matter was referred to the proper authorities to enquire into.

Accounts from W. A. Beslo for April rent \$20; John Turner \$200, and the West Canadian Collieries for March light service \$459, were duly passed for payment.

By-Law No. 9, regarding medical health officer and sanitation was read a first, second and third time and finally passed.

By-Law No. 15, known as the Vagrancy By-Law, was read a first, second and third time and finally passed.

By-Law No. 65, respecting penalties, was declared to be incomplete and was referred back to the draftsmen.

An account from the West Can-

adian Collieries for some work done by Contractor Pozzi, was read. Secretary was instructed to ascertain from the W.C.C.C. what authority was received by them from the town for this work. The bill amounted to \$60.

The Mayor stated that the Council should endeavor to retrench wherever possible, and suggested that in view of the recent daylight saving measure giving longer evenings that the Council should decide to cut down or cut out the street lights for a few of the summer months. On motion by Dutil, Lagace, it was decided, to cut off the streetlights until further notice, to take effect May 1st. It was felt that cutting off the street lights for several months would effect a saving of several hundred dollars for the town, besides allowing of a twenty-four hour electric service for subscribers, thereby avoiding the necessity of so many people getting out in their night-robes in the hours of night to do their ironing.

No other business, the Council adjourned at 10 p.m.

New B.C. Taxation Bill

The British Columbia government has introduced a bill providing for a new assessment on all farm realty subject to taxation, on which 1919 taxation will be based. Improvements are exempted up to \$1,500, in addition to the \$1,000 exemption on personal property. Onwards the tax provided for is 10 per cent, on the income or the assessed value of the removed, whichever is the greater. If taxed in this manner, deduction of plantings, buildings, depreciation of plantings to 15 per cent may be allowed at the discretion of the minister of mines. Deduction for salaries of officers and directors will be allowed when they are resident in British Columbia and pay income tax themselves, and mining dividends would be exempt from income tax when the tax is paid at the source. Gold mining companies will be taxed on profits only. The tax on iron ore is 37½ cents a ton. All mining taxes are to be in force as from January 1st, 1917. Salmon canners will pay four cents a case or income, whichever is greater, and salmon processors \$1.00 per case. The same applies to whaling companies, either on income or 10 cents a barrel for whale oil and 20 cents a ton for fertilizer.

The banquet given in honor of the departing mountaineers at the Cosmopolitan hotel on Friday night last was attended by representatives from every town and village in The Pass. A short program was presented through Mr. F. F. Hunter as master of ceremonies. Many fitting tributes were paid to the past history of the B.N.W.M.P., and regret was expressed by all that such an organization should become a thing of the past.

Used Cars For Sale

We have on hand one used 1910 and one used 1917 Chevrolet Touring Car, in first-class condition. Also a Seven-Passenger Pullman Car, in good condition, suitable for Livery. Apply to McDERMOTT & MORGAN, Pincher Station, Alta.

NOTICE

NOTICE IS HEREBY GIVEN that in accordance with the provisions of the Irrigation Act, the INTERNATIONAL COAL AND COKE COMPANY, LIMITED, has filed the irrigation memorial and application in Section 13 and 15 of the said Act, with the Commissioner of Irrigation, at Calgary, Alta.

The applicant company applied for the right to divert Forty-eight hundred and forty-two (482) acre feet of water from the Bow River, to irrigate a tract of land on the South half of Section 8, Township 8, Range 4, West of the 5th Meridian, for industrial and manufacturing purposes, and for other economic purposes, the works as shown by the memorial and plans filed, to enable the water so diverted to be used for the said industrial

purposes. DATED at Coleman, Alta., this 27th day of April, 1918.

INTERNATIONAL COAL & COKE CO., LTD.
O. E. S. Whiteside, Manager,
Vancouver

NOTICE

TO WHOM IT MAY CONCERN:
TAKE NOTICE that it is the intention of the Council of the Town of Coleman to nominate Mr. John H. Young and Mr. J. C. McLeod of the Council to be judge on Tuesday, the 14th day of May, 1918, at the Council Chambers, Coleman, at 8 o'clock in the afternoon:

"What is the portion of Mayfield Avenue in the Town of Coleman described as follows: Commencing at the Southwest corner of Lot 1, Block 18, Coleman 820-L, and running thence Westwardly for 100 feet, thence Northwardly parallel with the West Boundary of said Lot 1 a distance of 100 feet to a line intersecting said Block 18, thence Eastwardly for 100 feet, thence continuing Lot 1 and thence Southerly along the West Boundary of Lot 1 to the place of commencement, containing 3000 square feet of said Mayfield Avenue; may be leased by the Town to the United Mine Workers Association on such terms and for such period as the Council may hereafter determine."

DATED, Coleman, Alberta, the 10th day of April, A.D. 1918.

JAMES FORD,
Secretary-Treasurer,

NOTICE

1918 Assessment Blairmore School District No. 628

NOTICE IS HEREBY GIVEN that the Assessment Roll for the Blairmore School District No. 628 of the Province of Alberta has been completed and the same may be examined at the Town Office, Blairmore, and the Board of Trustees of the said School District will sit as a court of revision to hear assessment appeals at the Town Office, Blairmore, on the 22nd day of May, 1918, at the hour of 10 o'clock a.m., and no person who does not appear at the said time and place will be entitled to appeal from the decision of the said court of revision to a Judge of the District Court.

DATED this 12th day of April, 1918.

F. WRIGHT,
Secretary.

Legislature's Message To The Soldiers of Alberta

The following message has been sent to the soldiers from Alberta fighting on the West front by Hon. C. W. Fisher, the speaker of the Legislature:

"The members of the Alberta legislature in session assembled deem it an honor to place on record their heartfelt appreciation of the valiant deeds of Alberta's sons who have placed Canada in the ranks of the great powers and prove conclusively that this Western province produces men worthy of the best traditions of the British Empire. They are fighting well and proving that they have paid handsomely in favor of providing as far as possible for the relief and comfort of your dependents, and rest confident that in the final issue now pending, Alberta's soldier will show the world that the Canadian soldier has planted the Empire on the map of the West and that he who wins the victory on the field of battle for freedom and public right."

Big Penalties For Persons**Failing to Register**

OTTAWA, Ont., April 22.—In connection with Canada's manpower registration to begin a day in June, it is pointed out that any person failing to register will be liable to severe penalties and liabilities. He may be fined or imprisoned, or at the discretion of the court may be both fined and sentenced to imprisonment.

An employer knowing him to be unregistered, and failing to deduct his wages, will thereby expose himself to the same penalties which the defaulter has incurred through failure to register.

Persons failing to register are advised to do so as soon as possible.

REGGIE MEYER CO., LTD.

The Y.M.C.A. should accomplish the active work of the campaign, and the schools, and that the language of instruction should be the English language. Dr. Stanley contended that the same standard should apply to all schools—public and private alike.

The Red Triangle

The Y.M.C.A. should accomplish the active work of the campaign, and the schools, and that the language of instruction should be the English language. Dr. Stanley contended that the same standard should apply to all schools—public and private alike.

In the Red Triangle, in France except from the base camp right into the trenches and provide cheer and refreshments for the men who are coming and going. In this manner the Red Triangle campaign will end entirely for girls' division, including refreshments, food and smoke. Supplies are sold in the cantines everywhere at the prices which are halved by the Y.M.C.A. and will be adjoined to without regard to local conditions. Any profits on these sales are devoted to the work amongst the men.

In the recreation camps, at everywhere where Canadian Soldiers are based, the Red Triangle is there situated to do that great preventive work of conserving the health and morale of the boys, as well as provide means of recreation.

In a campaign for \$2,250,000 the Y.M.C.A. of Canada will conduct the largest campaign of its kind in Canada, and the Red Triangle will be conducted throughout the country, and will devote practically all the money raised to the Red Triangle Work in Great Britain and France, where they have gone spectacularly and efficiently managed.

The country has been divided into districts according to provinces, and Alberta's quota has been set at \$150,000 which will be collected in the various held in the Red Triangle, particularly after he had Capt. J. M. McKeown who saw service with the 16th and 3rd battalions tell of what the Red Triangle would mean if the A.Y. A. had meant to the men in France.

Delegates from all parts of the province attended the conference at Calgary at their own expense. The Alberta end of the campaign was worked out and men returned to their homes thoroughly convinced of the immediate necessity of raising the fund needed by the Red Triangle.

After a long session of the meeting Capt. McKeown authorized the service rendered by the Red Triangle in the forward dugouts, the only places where the boys could get anything to eat or drink, and when they came out to disease ways and means of raising the finances were not slow to grasp that the immediate need was a constant flow of supplies from Canada to maintain the front in the multitude of little refreshment places over and under ground in France.

QUOTA BY DISTRICTS

The following is the table of the districts and approximate Estimated Quotas:

1—Medicine Hat.....\$15,000.....\$16,500

A General Meeting of the Blairmore Military Y.M.C.A Committee will be held at The Enterprise Office Friday next at 8.30 p.m.

Fight with Food

A Call to the Whole Dominion for the Utmost Effort to Produce Food for our Soldiers and Allies

OUR ALLIES are desperately short of food. In the midst of plenty ourselves we must face the stern reality of England on shorter rations than she has been for over a hundred years, and France with only three days' food reserve. Even from their present small supplies they are saving Italy from collapse through hunger.

Since shipping must be concentrated on the shortest routes, Canada and the United States must continue to be largely the suppliers of food. Canada must provide wheat and meat in increasing quantities to meet a situation that imperils the issues of the war.

Men who can be spared for work on the farms must be spared. Those who are obliged to remain in the city or town can at least raise vegetables in their gardens or on vacant lots.

Every effort will be made to see that labor is forthcoming to harvest the maximum crops that farmers can produce.

An increased spring acreage in wheat and other grain is absolutely essential. Stock raisers are asked to provide the greatest possible production of meat, especially pork. Starvation is threatening our Allies. Everyone in Canada must fight by doing his or her utmost to produce and to conserve food.

The population of the city of Rheims before the war was about 100,000; now it is said that only 15,000 remain, most of whom are in hospitals.

There are five dollars each for some of the occupied portions of Northeastern France, and here in this country you can almost obtain possession of a full grown "chicken" for that amount.

C. W. Smith, of Medicine Hat, has been appointed Alberta Agent-in-charge of registration, which takes place early in June.

General Macdonald commanding the troops in Ireland has issued an order forbidding anyone to carry or possess arms, ammunition or explosives in eleven Irish counties, and also the cities of Cork and Limerick, unless duly authorized.

Blairmore Lodge, No. 68, meets in their Hall, Victoria St., every Tuesday at 7 o'clock, starting October, unless otherwise directed. R. H. DANIELL, Secretary.
CROWNS NEXT EPOCHMENT NO. 8
Meeting at LOOF Hall every second and fourth Tuesday,
following subordinate lodges.

A Truck for the Farmer

FARM equipment which will effect a time and labor-saving, and therefore a money-saving, must be carefully considered by every good farmer now-a-days.

The farm wagon, which for years was the most useful of all farm equipment, is now being replaced on the best farms by a sturdy, dependable motor truck. The truck will haul any farm product—fruit, grain, vegetables, stock, fertilizer, or wood—around the farm, or to the town or city many miles distant, in half the time, and at a much lower cost.

The Ford One-Ton truck is a rapid, economical and very serviceable means of transport. One of these on your farm will save you weeks of time in a single season and will enable you to pass through a crisis of labor shortage with less difficulty.

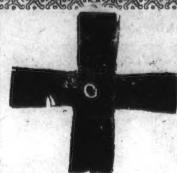

The Ford truck is supplied as a chassis only. This permits you to select any of the many body styles especially designed for the Ford truck and already on the market. Thus you can mount the one which suits your individual requirements.

Price \$750 f.o.b. Ford, Ont.

Three of the many body styles that may be mounted on the Ford truck chassis

Dutil & Robbins, Dealers, - Blairmore, Alberta

PRISONERS OF WAR

Many appeals are now being made for PRISONERS OF WAR. It is entirely unnecessary for any other organization except the Canadian Red Cross to collect for Canadian Prisoners of War, as the Secretary supplies these men with bread and other food to the maximum permitted, tobacco and clothing, as allowed by the regulations.

CANADIAN AVIATORS begin in this Dominion, unless otherwise provided, to furnish funds for the care of British and Allied prisoners. Any Person or Company supporting the Canadian and British Red Cross is thereby providing also for Canadian, British and Allied prisoners.

Returned Canadian prisoners report that the Canadian Red Cross parcels are arriving safely and are most satisfactory.

REX THEATRE BUILDING, CALGARY.

Bellevue Happenings

Mrs. R. Evans, of Coleman, was visiting friends here during the week.

Fred Chappell has severed his connection with the Bellevue Mercantile Co. here.

Mrs. J. DeGroote, of Blairmore, was visiting friends here on Sunday last.

Mont Walker has secured his discharge from the army and is back in Bellevue for a few days.

Haddad Bros' initial store bulletin, issued last week, made a great hit. Watch out for "No. 2" next week.

Mrs. Ashwick, of Whitefish, Montana, is spending a few days with her sister, Mrs. A. Goodwin, here.

Those who attended the Red Cross fair at Hillcrest on Monday night report having had a good time.

Private A. Bursey and wife, after visiting friends here for a few days, returned to Calgary the early part of the week.

Mrs. Gibson is taking over the house lately vacated by W. P. Williams and we understand will conduct a boarding house.

A slight fire occurred at No. 1 washhouse on Wednesday evening, doing considerable damage. The origin of the blaze is unknown.

Remember the Oldfellows' anniversary doings on Sunday evening. The members will attend divine service at the Methodist church at 7 p.m., when Rev. Bro. H. Peters will preside. The choir will render several special selections and several soloists will take part in the programme.

A meeting of citizens is called to take place at The Enterprise office on Monday evening next at 8 o'clock, for the purpose of organizing a citizens committee and considering matters of local and vital interest. Members of the council are particularly requested to attend this meeting.

The Alberta Farmer

The Weekly Edition of
THE CALGARY HERALD

A Big, Clean, Wholesome farm newspaper, politically independent, giving you every week the latest war news, the latest and most authentic reports on local and world markets, timely farm topics, livestock information from the principal centres, theatrical news, short stories by famous authors, a home magazine page, a page for mothers and little ones.

Here to many is an old friend under a new name, but so representative of the farmer in Alberta has this farm friend become, we believe that our new name "The Alberta Farmer" will more definitely indicate the principles and interests which in The Calgary Weekly Herald we have been privileged to advocate and support for the last thirty-four years.

Copenhagen Chewing Tobacco

IS THE WORLD'S BEST CHEW

It is manufactured
tobacco in its purest
form.

It has a pleasing
flavor.

It is tobacco scientific-
ally prepared
for man's use.

When Women are Weak

Women who feel weak, languid and depressed—who look pale and dull-eyed, and have lost appetite and fresh looks—need a tonic that will purify the blood, help the organs of digestion, regulate the liver and bowels, and strengthen the system. It long has been known that

Beecham's Pills

are a blessing to weak women for they quickly correct womanly ailments, improve the appetite, purify the blood and re-establish healthy conditions. They are safe to take as they are purely vegetable and without any harmful drug. A few doses will bring better spirits, improved health and a feeling of fitness.

Worth a Guinea in a Box

Promised only by Thomas Beecham, St. Helens, Lancashire, England.
Send money and we will send you Beecham's Pills.

CAMPAIGN OF FRIGHTFULNESS HAS NO TERRORS FOR BRITISH MARINE

IS VERY DISCONCERTING TO HUN CALCULATIONS

The Trouble is Not That the British Sailor is Alarmed, but That
It is Too Careless and Contemptuous of the Risks
Occasioned by Submarine Depredations

Cabinet Theodore Roosevelt, for president of the United States, was right when he said, as reported: "If the Hun has any notion that he'll frighten the British sailor, he will do so by his frightfulness. He has another think coming." The trouble doesn't seem to be that Britain is too careful and cautious and self-calculating in dealing with Teutonic Underwater Frightfulness. It is the Hun's carelessness and contemptuousness. It has been necessary for the admiralty to issue during the past year no fewer than 100 orders to effect that several vessels have been torpedoed by reason of failure to screen their lighters and gunboats through the danger zone at night. A special order was issued to all naval ports that ships and convoys should allow only one out of every four ships to leave port and obeyed the order to darken their sails.

Of course this is serious and foolhardy conduct, and very reprehensible at a time when ships, in addition to being torpedoes, are being disengaged must be disconcerting to the calculations of the Hun. He still has the upper hand, however. British seamanship by Teutonic standards is figured on success through fear and terror, and bringing death and destruction and deviling deadly toward scamps and passengers, including women and children. The Hun's Britain would soon find herself unable to secure men to sail her vessels, and she would be compelled to bring her "to her knees," and set feverishly about her friendish job.

She has, however, the character of Britons. After months of ruthless operation of the undersea submarine, the Hun has had hundred merchant vessels have been sunk within a year. The Hun finds that he is not able to inflict such unlimching enemy from the sea it is necessary for his foes to issue specific warning orders to his sailors to tempt in which British seamans hold his treacherous submarine. The finds that he is not able to inflict such pressure not alone on the fields of France and Flanders, and in the Far East, but also in the Atlantic. The vice of the fisher folk, whose travelers are forever picking up mines and gathering up wrecks, the likes of Drake and Nelson ceaselessly patrolling the waters, and the men who go down to the sea in unprotected merchant vessels and liners against

Rail Ordered by Russia Will Serve Canada

Minister of Railways Makes Arrangements to Get 1,000 Miles of Rails from U.S.

To meet the scarcity of steel rails in Canada, Hon. Dr. J. Reid, minister of railways and canals, has arranged with the Dominion Iron and Steel Company of Nova Scotia to deliver 1,000 miles of rails from the protektorate of Austria, where it is known to the Austrians, as to their having opportunities for national development?

The arrangement is made with the consent of the Canadian government and will not interfere with the importation and supply of raw materials for manufacture or fabrication. The terms of the arrangement are to get 1,000 miles of rails from Austria.

The minister of railways also has made arrangements with the Canadian government to get 1,000 miles of 67-pound rails rolled on British lines. The Canadian government turned over to Canada.

Of course this is expedient and by utilizing these means, soon to be available, the heavy traffic on the sidings and branch lines will not require importation of raw materials or supply of raw materials for manufacture or fabrication.

Value of the iron shiny in brightness when he holds them in his hands such as that of General Gordon, V.C., who went from his iron to safety far down the line, to take his last stand in the battle of the Ger- man trenches, were held up by a withstanding fire, and were taken into the passes settled by military trials.

General Scheuchz said that men should be called up because of their alleged conduct in the field, and he added, however, "We can only call up those who prove to be agitators."

Betrayed by Siam Soy Gave Wrong Answer to Question Couched in Slang

Propriety is already here in large measure; it is but a trifles compared with the propriety of the movement that will come with the close of the war, when millions of Europe's sons will be new homelands in a new country. Not alone will this tide come from Europe, however, but others are expected to have other countries and are but awaiting a favorable opportunity. How many, how many are but buried, disgraced and dead in the war and there are thousands who will prefer to begin their life anew and start again in some other land, and others come in the wholesale and the manufacturers. They will but wait until the tide of humanity begins to flow into the Dominions and then the tide of humanity will be taken to the utmost to keep abreast of the demand, the report of business men, who through years of experience are qualified to speak authoritatively, are to be taken to the utmost.

Abundant evidence of the commercial prosperity that is smiling on Canada is to be seen in the reports of the annual meetings of the leading banks, which in every case indicate that business is well maintained and that the general business conditions of Canada were never better.

The reports give thoughtful impression of the expansion of business, particularly in the West, and as a rule there is a vein of sane optimism far in the future.

At the end of the war ends

the tide of humanity, who will be obliged to import great quantities of food products. The present position of the people in

central Canada is, therefore, exceptionally bright. Both grain and live stock are in great demand. Western Canada's crops are larger in volume, acre for acre, than any grown upon the North American continent.

The reports give thoughtful impression of the expansion of business, particularly in the West, and as a rule there is a vein of sane optimism far in the future.
